Along the River Road

High school junior Cassie Nesler is a talented coder enjoying a seemingly idyllic life in San Diego, California, with her mother and step-father. An academically strong student, Cassie is an introvert with a focus on computer programming. This young adult novel follows Cassie as her life abruptly changes at the tragic death of her mother. Re-locating to rural Arkansas to live with her Aunt Jackie, Cassie gets to know her rural roots and Arkansas family. Still grieving her mother's death, Cassie and her two new friends, Dylan and Sofia, are intrigued by the story of a car accident that claimed the life of two Doddville High School seniors some 20 years earlier. The accident placed Cassie's mother under a cloud of suspicion as the driver who caused the fatal accident. The case was never resolved, and Cassie's mother left Doddville at the age of 17 to seek out a different life. The three friends seek to unravel the mystery along the River Road with the hope that the truth will exonerate her mother and unburden Cassie's family. Through their efforts, the truth is uncovered, but the price paid might be too high for Cassie.

About the Author

S. C. Ashby is an educator, writer and intrepid tramper who has just released her debut teen/young adult mystery novel. She splits her time between Little Rock, Arkansas, and San Diego, California, with her spouse and one cat.
